

Get Smart!, You've Got To Stop

Unknown weakness follow me
Enter anguish, tragically
The ceiling up above
Falling down
Falling down
Falling

The world around
Standing still
Move too fast
Now I'm ill
The pressure up above
Caving in
Caving in
Caving

People don't help
They just stare
Nothing to fear
Never a care
People all around
Run away
Run away
Run
Run

You have got to stop
You know you can't go on (4x)
