

Ghost Dance, Fools Gold

Sleep comes easy
And takes me down
But all I hear is that sound

Here I stand beside the water
On this shifting sand
Across the sea I know
Theres a land somewhere Im sure
A place for me to go
I dont understand, Ive searched high and low

For fools gold
It shines above, fuels the fire below
For fools gold
It cant be found
Ask a fool who knows

Sometimes I think its all too easy
Just to exist and never want for more
But when it shines, deep down inside Im not so sure
When it shines, grown men cry
Theres no cure I know

For fools gold
It shines above, fuels the fire below
For fools gold
It cant be found
Ask a fool who knows

Here I stand beside the water
On this shifting sand
Across the sea I know
Theres a land somewhere Im sure
A place for me to go
I dont understand, cross my heart and soul

For fools gold
It shines above, fuels the fire below
For fools gold
It cant be found
Ask a fool who knows
