

# Ghost Dance, Stop The World

I still cant believe that it could ever be  
This way and not be a dream  
I know it cant last  
The world turns too fast for us  
But while it does

Youre mine, all mine  
All I need tonights to know youre mine

Dont breathe a word, dont change a hair  
Stop the world right now see if I care  
The light that shines above, let it shine for me alone  
So that I know, so that I know

Youre mine, all mine  
All I need tonights to know youre mine

Stop the world  
Were just killing time  
Let me hear you say youre mine  
All mine, all mine, all mine, all mine

Id wear your heart on my sleeve for all the world to see  
Would you do the same for me  
Show me that you care  
Dont ask me to share you with anyone  
Not anyone

Youre mine, all mine  
All I need tonights to know youre mine
