

# Ghost Dance, This Way Up

Without a word of warning  
You turned and looked my way  
Didn't feel a thing at first  
Then it hit me like a tidal wave  
There's no sense in trying  
Trying to explain  
The trouble with me  
Is I'm too quick to take the blame  
There I go again

You came and turned my world around  
You came and turned it upside down

I remember on night  
Lying half awake  
I dreamt my heart was big brown box  
On the side it said do not break  
You came and stole it  
And tore it apart  
I tried to pick up the pieces  
But where do you start  
It's gone too far

You came and turned my world around  
You came and turned it upside down

Were treading the thin line  
But I don't care  
Let the dead and the dreamless sleep  
They've got the time to spare  
My head is spinning  
Spinning like a top  
Since you came into my life  
It feels like a bomb has dropped  
When will it stop

You came and turned my world around  
You came and turned it upside down
