

# Ghost Of The Robot, Mefiant

It's not fair, y'know  
When you're the only one in tune  
It's not fair, my love  
When you're broken hearted too  
It's not fair anymore...

All the schemes that you dream about  
Won't matter at all when you wake up alone  
And if she really haunts you now  
Just pick up the phone...  
But you know you won't

It's not fair, y'know  
When you're the only one in tune  
It's not fair, my love  
When you're broken hearted too  
It's not fair anymore...
