

Ghost Of The Robot, Mefiant

It's not fair, y'know
When you're the only one in tune
It's not fair, my love
When you're broken hearted too
It's not fair anymore...

All the schemes that you dream about
Won't matter at all when you wake up alone
And if she really haunts you now
Just pick up the phone...
But you know you won't

It's not fair, y'know
When you're the only one in tune
It's not fair, my love
When you're broken hearted too
It's not fair anymore...
