

Ghost Of The Robot, Sounds Like A Personal Problem

What is this crap I'm going through?
Where am I at and who are you?
To make me feel like I'm so scared
Caught me off-guard, was not prepared

For you
So smart, so cool
To me
Life seems it shouldn't be this way

So here I am and there you are
Sitting so close, feeling so far
From me, and I can't figure this out
What I should say, what's this all about?

To you
Too smart, too cool
For me
Life seems it shouldn't be this way...
