

Giant, Lay It On The Line

Since you've been gone, I spend my days dreamin' 'bout
The way things used to be with you
I carry on, but getting over lovin' you
Is the toughest thing I've ever had to do
'Cause you took me straight to heaven, and I've never been so high

Chorus:

I'm lost in paradise, without your love my heart has paid the price
I won't let go of yesterday, will I ever find my way

I'm lost in paradise

I can't sleep at night, I reach out in the darkness

To hold you close, but you're not there

I try to forget this dream of making love to you

But the memory is more than I can bear

I could find a way to make it, if I knew that you still cared

chorus

Someday I'll find you, I'll search through heaven and hell

Until I have you back in my arms again, I'm lost in

(Instrumental break)

chorus

Lost in paradise, I'm lost in

(Paradise) (repeats out)
