

Gilbert O'Sullivan, My Advice To You

Why do you hurt her
When she's in love with you
Please don't desert her
Is all I ask of you
You know it's wrong
You knew along
Do what I say and you can't go wrong
My-advice to you is stay
Baby my advice to you is stay

Wait till tomorrow
And see what lies is store
If I've played my cards right
It'll be like it was before
When she loved you and you the same
I know she'll be glad to have you back again
My advice to you is stay
Baby my advice to you is stay

Can't help but thinking
That you're gonna see the light
And she'll be the one girl
To stand by you when things ain't right
So listen to me and keep your head up high
I promise you this
I'm telling you it's no lie
My advice to you is stay
Baby my advice to you is stay
