

Gillan, Abbey Of Thelema

She opened her eyes
With a look of surprise
And she started to cry
She remembered the dream,
Which wasn't a dream
Abbey of Thelema

Going to another place,
Running in another race,
She tried to do what she would,
That was the law she understood

I was on another plane,
She was out alone again
Scarlet women ride the beast
And Leah will enjoy the feast
She will enjoy the feast
She will enjoy the feast
Leah will enjoy the feast

If she follows the law,
Then she can sure open any door
It's not for the fool,
And it's not for the mule
Shaytan makes the rule

Going to another place,
Or running in another race,
She tried to do what she would,
That was the law she understood

I was on another plane,
She was out alone again
Scarlet women ride the beast
And Leah will enjoy the feast
She will enjoy the feast
She will enjoy the feast, Leah

Going to another place,
Running in another race,
She tried to do what she would,
That was the law she understood

I was on another plane,
She was out alone again
Scarlet women ride the beast
And Leah will enjoy the feast
She will enjoy the feast
She will enjoy the feast
She will enjoy the feast
She will enjoy the feast
