

# Gin Blossoms, Highwire

I wanna take you so far  
But they don't want to let us out  
But they do, they do, they do  
I don't wanna walk on that highwire  
They ain't gonna let us down  
But they do, they do, they do  
What I could never believe in  
I was never really even  
And I forgot about the cost  
And then I got lost, I got lost, I got lost, I got lost  
Didn't really wanna live it over  
Or even wanna live it down  
But I do, I do, I do  
What I could never believe in  
I was never really even  
And I forgot about the cost  
And then I got lost, I got lost, I got lost, I got lost  
Didn't really wanna live it over  
Or even wanna live it down  
But I do, I do, I do...
