

# Gin Blossoms, Until I Fall Away

I want to tell if I am or am not myself  
It's hard to know how far or if at all could go  
Waiting far too long for something I forgot was wrong  
I don't know all the answers I think that I'll find  
Or have it within the time but it's all that I'll have in mind  
Until I fall away  
That won't keep us waiting long  
Until I fall away  
I don't know what to do anymore  
Until I fall away...  
My fear pretend that I'll never be in love again  
It's real to me but not like these fools and not like this scene  
I won't find or have it within the time  
If it's all rusted and fade in the spot where we fell  
Where I thought I'd left behind  
It's loose now but we could try  
Until I fall away  
I won't keep us waiting long  
Until I fall away  
I don't know what to do anymore  
Until I fall away...  
When there's no good answers  
To those new questions  
Another personal disaster  
There's nowhere to go but down...
