

Gin Ga, Remember Whatever

Hold on a minute, babe
We're about to cross the border
This is a promises land?
We gonna take this ride let take us higher
Higher than ever
We're gonna take this ride and we won't remember
Remember whatever

You used to say that you've been waiting for
Sail away, let's go
This is all you've been waiting for
Sail away, let's go
It's gone

Count down the minutes,babe
We're falling in disorder
Get up yourself again
We'll be fallin' even harder
We gonna take this ride let take us higher
Higher than ever
We're gonna take this ride and we won't remember
Remember whatever

This is all you've been waiting for
Sail away, let's go
It's gone
This is all you've been waiting for
Sail away, let's go
It's gone

We gonna take this ride let take us higher
Higher than ever
We're gonna take this ride and we won't remember
Remember whatever

You got me, you got me on the ropes now
Don't you let me swinging on the edge
He got me on the ropes now
But don't you let swing on the edge

This is all you've been waiting for
Sail away, let's go
It's gone
This is all you've been waiting for
Sail away, let's go
It's gone

We gonna take this ride let take us higher
Higher than niever
We're gonna take this ride and we won't remember
