

# Ginga, Sparkle And Shine

I stumble and fall  
Out and against the wall  
I walk above  
I walk above it all

The stakes are high  
They wont go down no more  
Wasn't like this  
Wasn't like this before

Ive sung this song a thousand times before  
It's a worn out tune don't want to hear no more

I carried you down  
Carried you down the streets  
And outside of town  
I buried you in the fields

I looked at the clouds  
I rained down that melody  
It burst with a sound  
Dropped you before my feet

Ive sung this song a thousand times before  
It's a worn out tune don't want to hear no more

Come on, little baby  
Told you everything I know  
Held me under water  
Until there was nothing left to show
