

Gino Vannelli, Alive By Science

Respirators Ventilators

High and holy legislators

Give me agony

Pure agony

Vegetation indignation

Endless one-way conversation

Ain't living to me

And when I lose all my self-reliance

Don't keep me hooked up to no appliance

Don't keep me (if you love me)

Mmmm don't keep me

Alive by science

Alive by science

I hear an angel banging on my door

Big Daddy on the top floor

Shouting "Free"

"You gotta be free"

This is my life cest mon affaire

Fat lady's singing

I don't stand a prayer

Now be a love and pull the plug on me

Now babe if you be true to our alliance

Please don't pump my lungs without my compliance

Don't keep me

Oh don't keep me

Alive by Science

Alive by science

And when I lose all my self-reliance

Don't keep me hooked up to no appliance
