[Timbaland:]
Chillin' on the corna' wit my man Ginuwine
Speakin about my problems
Speakin about what's on mah mind
Neva had a true reason whether I'mma be a hit or leavin
Neva had an adress
My life aint been nuttin but a F'in mess
Talkin to to a whole lot of people
Tellin me that my life is not gon' be creative eitha
But my man Jafar
He had a bunch of plans
Ran to JD he ?? the plan
Then what what Michael Capriland
He hooked us up with Polly and he signed the G man

Back to the basis
L West had to let my legal statement
She means so much to me
She hooked us up with Ron Sweeni
Workin together as a team
Tryin to make the address complete our dreams
As it seems
Life cannot be defined in many
There will be situations messin life's ?? candies
To the left to the right
550 baby, ya all right.

I've been searching for so long
I've been searching for so long
I've been searching for so long
I've been searching for so long

[Chorus til fade]
