(Oh Yeah)

Oh-oh-oh-oh-oh-oh

(You know what baby? Ive been meanin to tell you a lot of things ya know what I mean?)

Gotta have you gotta have you gotta have you gotta have you baby

Oh-oh-oh-oh-oh-oh

(So much, so me)

Gotta have you gotta have you gotta have you gotta have you baby

Oh-oh-oh-oh-oh-oh

Gotta have you gotta have you gotta have you gotta have you baby

(There's just some things you need to know, ya know what I mean? Listen closely)

Oh-oh-oh-oh-oh-oh

[Verse 1:]

Girl your beauty it could fill a book

Once glance girl is all it took

It ain't too hard to spot ya

I saw you from a mile a-way

Tell me fellas why she gotta be

The coldest thing that a playa see

I gotta do whatever

Try anything it don't matter I gotta let her see

If there's a sign she's diggin' me enough to make love on the first night

Then that's a good look

Can I be honest with you

I, I, I, girl I want you to be

[Chorus:]

Better than you knew me girl

I need your lovin' for me

Girl I want you to be mine

With the quickness

Skip the bull-sh

Girl your gonna be

Better than ever

When you finally get my love

Inside your b-ody

Ah baby, ah baby, ah baby

[Verse 2:]

Now the word is

Nobody ever gets too close to talk to you for too long

All the gossip about you, it's all bad

Cause the truth is

That you've been needing good lovin' for a year and some months and some days and some hours

Baby let me take your stress

Like a puff on the best from the West

And if you decide you're diggin' me enough to make love on the first night

Then that's a good look

Can I be honest with you

I, I, I, I want you to be

[Chorus (x2)]

Better than you knew me girl

I need your lovin' for me

Girl I want you to be mine

With the quickness

Skip the bull-sh

Girl your gonna be

Better than ever

When you finally get my love

Inside your b-ody

Ah baby, ah baby, ah baby

Yo Yo, if Marvin was here, he'd prolly do a lil somethin like this

Ya'll listen

I'll give you love and affection
Girl my sex is a blessin'
Lord I said wow
You're marvelous
Let your love come down
Don't be repressed
Yea Baby
Work so good like I knew you would
Yea baby
I'm at a loss for words
Now just pull your body close to mine
My love is gettin' closer to the sun as you go
The only thing that's left is to give you every bit shook up
Can we imagine
Lay inside eachother all night
Can I be honest baby, I want you to be

[Chorus]
Better than you knew me girl
I need your lovin' for me
Girl I want you to be mine
With the quickness
Skip the bull-sh
Girl your gonna be
Better than ever
When you finally get my love
Inside your b-ody
Ah baby, ah baby, ah baby

Oh-oh-oh-oh-oh-oh
Gotta have you gotta have you gotta have you gotta have you baby
Oh-oh-oh-oh-oh-oh
Gotta have you gotta have you gotta have you gotta have you baby
Oh-oh-oh-oh-oh-oh
Gotta have you gotta have you gotta have you gotta have you baby
Oh-oh-oh-oh-oh-oh
