

Giorgio Moroder, Right Here, Right Now (ft. Kylie

When the lights start flashing
You can open up your eyes
And the highest mountain

Is the one that you have climbed
Yeah, I can look for love, till the skies ain't blue
I can look for love, to get over you
I can look for love, for a deeper kiss
Nothing ever felt as good as this

Staring in your eyes, I see the sunrise
There's nowhere else but right here, right now
No deeper feeling, this is the real thing
There's nowhere else but right here, right now

There's nowhere else but right here, right now
There's nowhere else but right here, right now

It's a never ending, promise of the holy grail
But the space I'm in it feels so real
Gotta sit back and exhale
Yeah, I can look for love, till the skies ain't blue
I can look for love, to get over you
I can look for love, for a deeper kiss
Nothing ever felt as good as this

Staring in your eyes, I see the sunrise
There's nowhere else but right here, right now
No deeper feeling, this is the real thing
There's nowhere else but right here, right now

There's nowhere else but right here, right now
There's nowhere else but right here, right now

It's the way you hold me tonight
'Cause the way you hold me tonight
Makes me feel like there's no place I'd rather be
Than right here, right now tonight

You're right here, right now tonight

There's nowhere else but right here, right now
There's nowhere else but right here, right now
