

Girls Aloud, Biology

Why don't you fool me, feed me, say you need me without wicked games?
Come on and hold me, hug me, say you love me and not my dirty brain
Why don't you fool me, feed me, say you need me without wicked games?
Come on and hold me, hug me, say you love me and not my dirty brain
I've got one Alabama return that'll take me far away from you
'Cause when you take me in your arms I turn to slave, I can't be saved
So I got my cappuccino to go and I'm heading for the hills again
'Cause if we party anymore we'll start a fire, of pure desire
Closer, your mind's flying blind with your head and your face getting red and your heart beats gets
You fall on your knees and the geek at your feet says your neat and the beat gets closer
You die for the thrill at the kill and your heart's had its fill but it still creeps closer
You want it to freeze but you're weak, in too deep and the beat and the beat gets closer
Closer, closer, closer, closer, closer, closer, closer, closer
We give it up and then they take it away
A girls got to zip it up and get her head in the shade
Baby, we give it up, its just a matter of time
Before all the heavy stuff, comes back to bite your behind
You can't mistake my biology
The way that we talk
The way that we walk
It's there in our thoughts
The magic number's a part of me
The way that we talk
The way that we walk
So easily caught
You can't mistake my biology
The way that we talk
The way that we walk
It's there in our thoughts
We're gonna cause a controversy
The way that we talk
The way that we walk
So easily caught
Why don't you fool me, feed me, say you need me without wicked games?
