

Girls Aloud, Damn

And if you could tell me what the hell I should really do?
Whenever you're around I fail to move it, yeah
All I can really do whenever you're in my head, ooh yeah

Tell me what the hell I should really do?
Whenever you're around I fail to move it, yeah
All I can really do whenever you're in my head, ooh yeah

About girls who take good care
I've done that, I don't know where
You're gonna get to know my name
Your body's set if you get me tame

About boys who take good care
I've done that, I don't know where
You're gonna get to know my name
Your body's set if you get me tame

"Jail got bust like bail got dead of the night
The chance stops here stops there it's the tale of the times"

"She said
Damn, I lost my number and I lost my head, baby
Now, I thought about it and I could be dead baby
Damn, I lost my number and I lost my head, baby
Now, I thought about it and I could be dead"

And if you could tell me what the hell I should really do?
Whenever you're around I fail to move it, yeah
All I can really do whenever you're in my head, ooh yeah

Tell me what the hell I should really do?
Whenever you're around I fail to move it, yeah
All I can really do whenever you're in my head, ooh yeah

Do whenever
Do whenever
Do whenever
Do whenever
Do whenever
Do whenever
Do whenever
Do whenever
