

Girls Love DJs, Easy (feat. Sophia Ayana)

I don't want the drama
I just want a real one by my side
I can be a lover
All I need from you is a simple life
No no no no, don't wanna have nothing to lose
I know know know know, what I need to get it right
No no no no, got nothing but love for you
Cause everything is just not worth my time
I don't need a brand new car to take me away
I don't need no private plane, London to L.A.
I just want a little bit, a little bit, a little bit, a little bit to be
Easy
I don't need a brand new car to take me away
I don't need no private plane, London to L.A.
I just want a little bit, a little bit, a little bit, a little bit to be
Easy
Easy
Easy
Nothing's picture perfect
You just gotta keep this heart of mine
Damn your mercy begging
But all I ask from you is a simple life
No no no no, don't wanna have nothing to lose
I know know know know, what I need to get it right
No no no no, got nothing but love for you
Cause everything is just not worth my time
I don't need a brand new car to take me away
I don't need no private plane, London to L.A.
I just want a little bit, a little bit, a little bit, a little bit to be
Easy
I don't need a brand new car to take me away
I don't need no private plane, London to L.A.
I just want a little bit, a little bit, a little bit, a little bit to be
Easy
Easy
I don't need a brand new car to take me away
I don't need no private plane, London to L.A.
I just want a little bit, a little bit, a little bit, a little bit to be
Easy
I don't need a brand new car to take me away
I don't need no private plane, London to L.A.
I just want a little bit, a little bit, a little bit, a little bit to be
Easy
