

Girlyman, Amaze Me

New Jersey born, yeah
The flat land of Nebraska
From Decatur, Georgia
To California

Let's dig up the map and
Let's leave while we're happy
I wanna see Tucson
Before it's all gone

Amaze me, America
Save me from armageddon, high road to heaven

Eight hours at the airport
Wanna hightail to Gulfport
Wanna sit on the back porch
And stare at the stars

From the chemical water
Of New York's dirty harbor
To the rock of Gibraltar
At the end of the world

Amaze me, America
Save me from armageddon, high road to heaven

Let's dive to Atlantis
Let's hear what they'd tell us
From the bottom of the ocean
I really want to know them

Amaze me, America
Save me from armageddon, high road to heaven
