

Girlyman, David

Well all the love we had was ours
Even in the nights with no stars
Even when the light had faded
There was still you and me, David

And you were all I had for sure
Even when I had much more
Even with my pockets weighted
It was just you and me, David

Cause my darling
In the evening
When my defense
Is receding
I can see you clearly like I did then

Well all the life we had was ours
Even with no kids and no yard
Closing up the store we opened
On that day when all the streets were frozen

Cause my darling
In the morning
Before sunrise
Gave its warning
I could feel you fading from me then

But all the love we had was ours
Even on the nights with no stars
Even when the light had faded
There was still you and me, David
