## Girlysound, It's In My Kiss (Do You Love Me)

The last time we made love You said my name to make me come But it was just a speaking offer It means nothing without your love Means nothing without your love Means nothing without your love

I can wake up any day
See a million things that I could say
But then you're just an easy target
It means nothing without your love
Means nothing without your love
Means nothing and nothing means nothing

Each time the world turns round
It doesn't make a f\*\*king sound
It doesn't mean that we don't feel it
It means nothing without your love
Means nothing without your love
Means nothing and nothing means nothing

So if you want to know if I love you so You want to know if I love you so You want to know if I love you so It's in my kiss that's where it is It's in my kiss that's where it is

Do you love me cause I am in the mood Do you love me for a f\*\*king groove Do you love me cause I can mash potato Do you love me cause I'm an alligator

Singing ooh whoa whoa Ooh whoa whoa (x 3)

Do you love me cause I can walk on water Do you love me cause I'm the president's daughter Do you love me cause I am queen of England Do you love me just cause I'm sitting here singing

Ooh whoa whoa (x 3)

So if you want to know if I love you so You want to know if I love you so You want to know if I love you so It's in my kiss that's where it is It's in my kiss that's where it is

So the next time we make love Drop the words just do the stuff Speak softly and use that big stick It means nothing without your love Means nothing without your love Means nothing and nothing means nothing to me
