

# Gisli, You And Me

she dont matter anyway  
i dont really know how to play guitar this way  
so you say you dont notice anything wrong  
i am telling you girl everything in this song

is about you and me  
and the way we react and when you speak  
you always say, you say stuff  
but me, i just say yeah

disco never really died  
it just went underground hiding for a while  
and its like our love has done the same  
but aslong as it keeps popping up again

its up to you and me and the way we react  
and when you speak you always say  
you say stuff, but me, i just say yeah

its up to you and me and the way we react  
cos when you speak you always say  
you say stuff, but me, i just say yeah
