

Gisli, You And Me

she dont matter anyway
i dont really know how to play guitar this way
so you say you dont notice anything wrong
i am telling you girl everything in this song

is about you and me
and the way we react and when you speak
you always say, you say stuff
but me, i just say yeah

disco never really died
it just went underground hiding for a while
and its like our love has done the same
but aslong as it keeps popping up again

its up to you and me and the way we react
and when you speak you always say
you say stuff, but me, i just say yeah

its up to you and me and the way we react
cos when you speak you always say
you say stuff, but me, i just say yeah
