

Glacier Hiking ft. Ryan Tedder, Save some

Wont you save some for me (3x)
When I imagined, your life before me
When I imagined, your life before me
Its not the fact that you slept with someone before me
Its the fact that some dude shares your history
(Wont you save some for me)
Im only nervous when I look back at your track record
I trust every word you say without a fact checkered
Im just currently working through the discovery phase
So I can eventually reminisce with you someday
(Wont you save some for me)
(Chorus)
Dont go using your heart for anybody else
Save it for me
Oh no, I wont go using my heart for anybody else
Save it for yourself, save it for yourself
(Wont you save some)
All the girls Ive been with before you dont matter
Why cant I understand it works the other way
Cause it hurts to say
Im sorry Ive been a jerk
Just bear with me and Im sure Ill get better day to day
(Wont you save some for me)
(Chorus)
Dont go using your heart for anybody else
Save it for me
Oh no, I wont go using my heart for anybody else
Save it for yourself, save it for yourself
(Wont you save some)
Dont go using your heart for anybody else
Save it for me
(Wont you save some)
Oh no, I wont go using my heart for anybody else
(Wont you save some)
Save it for yourself, save it for yourself
(Wont you save some)
Save it for yourself
(Wont you save some)
(Wont you save some)
Dont go using your heart for anybody else
Save it for me
(Wont you save some)
Dont go using your heart for anybody else
Save it for me
(Wont you save some)
Save it for me
