

Glass Animals, Black Mambo

What'll it be now mister mole
Whisper sloth in curls of smoke
Take a back seat
Or play pharaoh
Dance with me
And shake your bones

Slow down
It's a science
He's been waiting
To bring you down

Snake eyed
With a sly smile
He can hold you
And shake you child

Leopards laze each
On plush pillows
Slender capes
Of red and chrome

Paperback dreams
In their deep doze
Twitch their toes to
Black mambo

Slow down
It's a science
He's been waiting
To bring you down

Snake eyed
With a sly smile
He can hold you
And shake you child

Wanna play cheat
Now says the sloth
A domino
Flush to his nose

Tickle that cheek
And take your throne
Pump your veins
With gushing gold

Slow down
It's a science
He's been waiting
To bring you down
Snake eyed
With a sly smile
He can hold you
And shake you child

We can hold you /4x
