

Glass Hammer, Farewell To Shadowlands

I walked in the Valley
Of Deepest Despair
sought only comfort
Sent forth a prayer

Fell foes gather 'round me
Shadows draw near
In gathering Twilight
I labor in Fear

Out through the Darkness
On through the Night
Song of my soul
Sang of my plight

He gathered me up
Took me on high
Where roamed only Thunder
'Neath shimmery sky

I walked with the Master
As Twilight was scattered
Banishing Shadows
That no longer mattered
