(verse)
You tell me that you're never gonna hold me never
You tell me that you're never gonna want me never
You tell me that you're never gonna please me never
You tell me that you're never gonna love me never
Never is a long time Never is a long time
Never is a long long long long time
(chorus)
That was when I was really down
You never really wanted me around
Now I finally made it in the big time
Now everywhere I go you can be found
