

Glass Pear, Last Day of Your Life

Let me take you to
My secret place
High above the earth
Into out of space
Only God knows where
Only God knows how
I will take you there
Somehow
If this was the last day of your life
What would you do to make things right?
Cause this is the last day of your life
Who you gonna call to make things right?
I love you
Shine on
All that's beautiful is before your face
Now you're in the heart of a secret place
There's infinity in a grain of sand
An eternity in the palm of your hand
If this was the last day of your life
What would you do to make things right?
Well this is the last day of your life
Who you gonna call to make things right?
I love you
Shine on
Shine on
