

Glen Phillips, Simple

I'm complication
Live wire down
I'm agitation
distorted sound

You're celebration
Girl on a swing
Passion and patience
Unbroken ring
You're simple, simple
You're simple,
Simply all I need

I'm jagged rock
You, waterfall
Your gentle touch
You wear me down
Till I am smooth
Till I allow
Till I can bend
Till I can bow

You're simple, simple
You're simple
Simply all I need

Twilight sleep
I want to forget
Everything these last few years
Take them from me
Drive them away
I want to be simple again

'Cause I'm complications
Live wire down
I'm agitation
Distorted sound

You're simple, simple
You're simple
Simply all I need
