

# Glenn Hughes, Homeland

always take a part of you  
wherever I go  
you're never far from me  
no matter how far  
wherever I go  
remember all those years  
some were good  
few were bad  
when I dream about you, baby  
I'm so happy, yet so sad  
I'm so happy, yet so sad

Chorus:

do you wanna go back to my homeland  
to the place we belong  
back to my homeland  
to the place near your heart

now and then something  
strikes right  
thru' the heart  
just a scent or a shadow  
reminds me how far  
how far we are apart  
now when I look back  
there's one thing I've got to say  
there's just one place  
by now I'm sure  
sure you know  
now I'm sure, sure you know

do you wanna go back to my homeland...

(do you) do you wanna come with me  
(do you) do you wanna come with me  
(do you) do you wanna go with me  
I hope and I pray  
that you'll come back one day  
the feelin's so strong  
I've got to keep holdin' on  
stay with me, stay  
this is where I belong

do you really wanna go  
back to my homeland...
