

Glenn Hughes, I Got Your Number

How've you been? Alright?
You got the power
Turn on the light
Don't run for cover
No need to hide
You should be here
Right by my side

'Cause you know I've got your number
It's alright
'Cause you know I've got your number
It's alright

I got yours, you got mine
Want you to know that
Your love came on time
I got your message up
On the wall
You break my back
You make me wanna crawl
To get your number

'Cause you know I've got your number
It's alright, hey
Number, number, number
