

# Glenn Hughes, Stoned In The Temple

Oh it seems like somethin' tells me  
I've been here before  
And it don't feel right  
I won't be you leper anymore  
How many fingers do you see?  
Now tell me, can you see the real me?

How many bodies can there be?  
Like bobby deniro on the big bad screen  
He sure can play that role!

Stoned in the temple of madness with you  
Stoned in the sadness  
You don't have a clue

How's your private life?  
How come you don't hang around no more

You're so serious  
You can't tell the doorway from the floor

What do you need to cure your ill?  
Now tell me, can you see the real me?  
How do you swallow your pill?  
You're psychomatic on a westside jones  
Where did you get that face?

Stoned in the temple  
I'm gonna fix  
Stoned in the blue room  
I'm gonna fix  
Stoned in the darkness  
I'm gonna fix  
Stoned in the big house
