

Glenn Hughes, The Boy Can Sing The Blues

Yeaaaaah

what's done is done
you need a good shot
got 20/20 vision
it's time to rock and roll

I'm gonna take it to the top
I'm gonna come clean
You know it's my time
How have you been?

I hope by now that you heard the news
It's good to be back, cause the boy can sing the blues
Sing the blues

I'm gonna spread the word
I'm gonna get down
In your face
To your town

I'm gonna sing my song
like never before
Take you down
to the killing floor

I hope by now that you heard the news
It's good to be back, cause the boy can sing the blues
Sing the blues

I'm gonna rip it up
like a hurricane
I'm coming out
like a runaway train

You know I've past the test
what can I say
I've done my time
now I'm on my way

I hope by now that you heard the news
It's good to be back and the boy can sing the blues
You know he can
And I hope by now that you heard the news
It's good that I'm back, cause the boy can sing the blues
Oooh yes, he can
Sing the blues
It's good to be back
The boy can sing
the boy can sing the blues
