

# Glenn Hughes, The State I'm In

I know that something is wrong  
And I know it's for real  
I don't know what I've become  
And what do I feel?  
Is it for real?

Stranger than fiction, I'm lying in fear in my room  
This is the chosen, I'm leaving the pain  
The black cloud is fallin' again  
The black cloud is fallin'

And he takes me higher, 2 the state I'm in

I'm looking down on the earth as we sail cross the sky  
I'm not alone anymore  
And I don't wonder why, wonder why  
Locked in this dream  
I'm dying 2 open my eyes

Lost in the sadness  
Now I'm overcome

The black cloud is fallin' again  
The black cloud is fallin'

This is the chosen, I'm leaving  
The black cloud is fallin' again

Cast in the sadness  
Face with no name  
The black cloud is fallin' again

Cast in the sadness  
Face with no name  
The black cloud is fallin' again

Cast in the sadness  
Face with no name  
The black cloud is fallin' again

Cast in the sadness  
Face with no name  
The black cloud is fallin' again
