

Glenn Kaiser Band, Winter Sun

Lord, it's cold outside tonight
How I wish, Lord, the light should come
So cold outside,
Lord, I wish
that the light
would come
At the break of day
I'll feel the winter sun
I was far away, far away, far away
So far away
Felt like ice ran right through my veins
Far away
Felt like ice ran through my veins
Stumblin' through the night
blind and stuck to a ball and chain

Lord, it's cold outside tonight
How I wish for the light to come
Cold outside, Lord,
I wish that the light would come
At the break of day I'll feel the winter sun

Daylight roll
Daylight come
Set my heart ablaze
in the warmth of Your winter sun

I was far away
Felt like ice
ran right through my veins
Far away felt like ice ran through my veins
Stumblin' through the night blind
stuck to a ball an' chain

Tumblin' down on hard cold ground
Nothin' could heal my pain
Blown by the wind in sorrow and sin
Sick in the freezin' rain
Daylight roll / Daylight take my shame
