

Glenn Kaiser, It's A Beautiful Thing

They said I was dyin", they must not have known
Just how sick I'd been, how far from my home
I know I was healed, it happened on
The way to my knees
I know what's been done, this kingdom comes
They can call me crazy, but I love
This beautiful thing inside of me

I don't expect this world to understand
All the grace and mercy from Your hand
Not until they experience Your touch and see
Like bein" born, like livin" free
Like risin" up after bein" down so low
Like knowin" all you need to know

You have answered my questions
Enough to see me through
And if people don't understand
And if I just can't explain
Let 'em think I'm out of my mind
If they want to
