

Glenn Kaiser, Most Of All

I remember cold wind blowin' all across my face
A trace of frost would linger on my hair
As I wandered aimlessly from town to lonely town
Tryin' to shake my sadness and despair
And then I heard Him callin' me
Then I felt His tender love for me
And then finally I could see
That the sun had been shinin' all along
Oh, and I remember darkened streets
November's autumn leaves
They withered up and died every fall
But yet somehow I always hoped I'd live to see the spring
Your love was what I needed most of all
And if I didn't understand the searchin' in your hearts
I really couldn't sing this song at all
But Jesus knows just where you're at
And though you might gain the world
If you lose your soul then you have lost it all
If you lose your soul then you have lost it all
And then they nailed Him to a tree
And then He died, He died for you and me
But He is alive, and He wants to set you free
And all you've got to do is believe
Yes, all you've got to do is receive
Lord, Your love was what I needed most of all
