

Glenn Lewis, High Off You

dr. can ya help me out?
perscribe somethin make my high come down.
i can't eat i can't sleep,
at times i think i'm goin out of my mind.
i'm hearing voices inside of my head,
seein' shadows at the foot of my bed.
so tell me what can i do to remedy these love sick blues?

(chorus)
it's takin me,
elevating my mental state of being.
intoxicated i'm blazin like a Philly.
and just when i think it's over,
this feeling takes total control of me.

i get high.

i get high off you.(every time baby)
all the things that you do babe (as soon as i take one hit baby)
i take one hit of your love. (come on baby)
i just can't get enough can i get enough baby?

whenever i'm not with you baby, i can't seem to get my thoughts together
could it be temporary or could i be addicted to you?
i'm strugglin' to find myself.
see i'm lost somewhere inside your well.
sweet like honeycomb pie, your love gets me so high.
it keeps on takin me...

elevating my mental state of being.
intoxicated i'm blazin' like a Philly.
and just when i think it's over,
this feeling takes control of me.

i get high off of you.

i get high off you. (every little thing that you do)
all the things that you do babe;
i take one hit of your love.
i just can't get enough can i get enough baby?

(repeats chorus)

i get high off you.
all the things that you do.
i take one hit of your love;
i just can't get enough can i get enough baby?
