

Glenn Lewis, One More Day

1ST VERSE

I told her
Deeper than the deepest ocean
Vast as the universe
High like any mountain top
Put your world in reverse
Ain't nothing in these words rehearsed
Maybe we can make a first
Let me begin with a simple phrase
I'm a sinner
For lovin' you the way I do
Life's been peaks and valleys
With winds of change
Still love you all the same
I never beleived that love
Could be for me
Now I see
Clearly you were meant for me
And now I know the truth
Is to be with you
Cause I know your love
Will always be there

CHORUS

So maybe if you give me
Maybe just one more day
Find it in your heart to stay
Maybe we can make it
Maybe we can make it right
Maybe if you hold on
And if you hold on
Maybe just one more day
Find it in your heart to stay
And maybe make it better
Maybe we can make it right
Maybe if we hold on

2ND VERSE

Find how deep this love can go
Cause there ain't no guarantee
You leave or stay with me
That anyway's the right way
But surely we gon' make today
Understood, If you would
I'll be good
'Cause knowing at times
You couldn't stand it
Feeling taken for granted
But I'm here to tell you, baby
I ain't going nowhere
I'ma be right here
Best believe
If love is all you need
Ooo, wee, baby
Thick like gravy
Ups or downs
Highs or lows
Where we'll stop
Only love knows

CHORUS

So maybe if you give me
Maybe just one more day
Find it in your heart to stay

Maybe we can make it
Maybe we can make it right
Maybe if you hold on
And if you hold on
Maybe just one more day
Find it in your heart to stay
And maybe make it better
Maybe we can make it right
Maybe if we hold on

BREAK

It ain't gotta be this way
we can work it out if we take our time
It ain't gotta be this way
we can work it out if we take our time

REPEAT CHORUS TO FADE
