

Glenn Lewis, Take Me

Verse 1

It was in November when while out one night with friends
That I saw her there
She was just standing there
something in a distant stare
a faint look of despair
to her I was drawn
asked her was anything was wrong
told her my name said how you do
bouts to say you take care and it was nice to meet you
then she stopped me desperately
as if to say don't go but then she said to me

Chorus

Anywhere you wanna go just take me,
take me
Anywhere you wanna go just take me,
take me

Verse 2

Not know what to say but I could see
she was going through something's and
needed someone to be there to listen
probably wishing that she was someone else
and in my heart I felt bad
and I just knew I had
cause I'd want the same myself
so we got into it
while she talked I thought to myself
How could it be that she had no one
not even a friend to come
and she'd have to turn to me and say

2x's Chorus

Verse 3

Seeking out the wrong kind of attention
always in abusive situations
and don't know how she got it good
was starting to sound like it could be the reason for her misery
slowly I could see she had problems nothing I or anyone
could say or do would help what she was going through
then suddenly, she stood up across from me and as loud as she could be
screaming out someone help me please realizing she was gone
wishing I'd mind my own saying

5 x's Chorus out

Take me anywhere but here
she's crazy, crazy
