

Glenn Lewis, Take You High

Girl I want you
Right where you are
Just hold it there don't move
my shining star
you must not know exactly what you mean to me
So deeply, completely you got me and I'm needing your love

Chorus:

When your feeling lonely, and you need someone to love you babe
You can always trust me, cause baby I can take you high
Whenever you need me, Girl it can be just you and I
Cause girl you are so lovely, so tell me can I take you high, high, high

Verse 2:

I've been meaning to tell you goodbye
But I can't seem to let you go
Girl I thought it was just a fling, now what we have is so beautiful
We were keeping it on the low and now I don't care if anybody knows
that i love you so deeply, completely I gotta tell you so

Chorus

Break down:

So Lovely, your love
You've inspired my heart
When you kiss me I blush, feels like I'm in heaven when we touch
cause you are soo much

Repeat Chorus until end
