

Glenn Tipton, Healer

It depends on your point of view
I'm a healer
I can heal you
If you're skeptical no can do
If you're a believer
I can heal you
Run out of remedies as others do
Then come to me
I will heal you
I'll take your pain away
Then give to you
A new beginning
If you want me to
Stand in line
Tell me what's wrong
I'll give you faith
And I'll make you strong
Come here close to me
Feel my energy
Put your trust in me
I can heal you
Look at me
And you'll begin to recognise reality
Sickness lives only in your mind
Look at me
Give yourself completely
Look at me
Trust in me
Look at me
I can heal you
"Save me"
I can hear you say
Heal me
Take my pain away
Stand in line
Tell me what's wrong
Give me strength
And I'll turn the heat on
Come here close to me
And feel my energy
Put your trust in me
I can heal
Come up close to me
Feel my energy
Put your trust in me
I can heal you
Come up close to me
Feel the power in me
Believe me - I'll heal you
Come up close to me
Change your destiny
Trust me - I'll heal you
