

# Glenn Tipton, Never Say Die

You can be immortal  
You can carve your name on the edge of time  
You can live forever  
Never say die

You can be immortal  
You can be around till the end of time  
You can make your lifetime  
One of a kind

Too many stars that never shine  
Too many crash and burn  
Too many ships that sank in the night  
And never sail again

You can re-write history  
In a thousand years they'll still say your name  
And the unbelievers  
You can blow away

Too many stars that never shine  
Too many crash and burn  
Too many ships that sank in the night  
And never sail again

But I'm going to live  
Till the end of time  
I can walk through fire  
And never say die

You can be immortal  
You can carve your name on the edge of time  
You can live forever  
Never say die

But I'm going to live -till the end of time  
I can walk through fire  
And never say die

I'm going to live for the rest of time  
I can walk on water  
'cause I never say die

I can walk through the gates of hell  
I spit fire and I live to tell

I can fly can't you see  
I'm going to be around - be around  
Forever - I'm never going to die  
I can be immortal  
And never say die

I'm going to live for the rest of time  
I can be immortal  
And never say die
