

Glitter Kicks, Impressed

Show me how it is
Tell me all you know
I don't really hear a word you say
but when you're done you'll go
you'll go
you'll go away
Can't believe how great you are
Can't believe what you can do
Can't believe how smart you are
I'm so impressed with you
I am so impressed with you (it's true)
In your fantasy
have your power over me
Power never hides the insecurity
And you are the weakest thing I've seen
I've seen
I've ever seen
Can't believe how great you are
Can't believe what you can do
Can't believe how smart you are
I'm so impressed with you
I am so impressed with you
If you think you can do everything better than I can
Why are you trying so hard to prove it
prove it
If you think you can do everything better than I can
Why don't you go away and do it
do it
Shut up and do it
Can't believe how great you are
Can't believe what you can do
Can't believe how smart you are
I'm so impressed with you
I am so impressed with you (it's true)
