

Glitter Kicks, The Best Year

I asked the moon tonight for the answers that the stars won't give me
She said theres nothing left that I don't know that she could teach me
This one will be the best year I've ever had
In my whole life
This one will be the best year
and if it's not
at least I'll know I tried
I tried
I know that I can answer
my own questions
If I only look inside
Sometimes I see the angels
protecting me in the corner of my eyes
This one will be the best year I've ever had
In my whole life
This one will be the best year
and if it's not
at least I'll know I tried
I tried
So now I look up to the sky
And everything is clear
It's like the light from all the stars
has burned away the fears
This one will be the best year I've ever had
In my whole life
This one will be the best year
and if it's not
at least I'll know I tried
I tried, I tried
