fly me to the moon  
fly me to the moon

broken hearts... broken words...  
broken hearts... broken words...

fly me to the moon  
fly me to the moon  
Did you know what to do about it?

fly me to the moon...  
We'll be there soon...

the sky glow above me

fly me to the moon  
We'll be there soon

before lunar eclipse

last kiss  
before lunar eclipse

I'll never see you again...

et puis après l'éclipse  
nous ne sommes plus dans l'ombre  
la pleine lune nous guide

heavy smog between us

in the darkest areathough there's still some lights

waiting for the dawnwaiting for the dawn...  
soon to arrive

flying to the moon
