

Gloria Estefan, If We Were Lovers

One day soon
It's gonna happen just by chance
You and I
Will just succumb to this romance
On that day
My love will find you
And you'll discover
What a wonder life can be
And you will know
How much i love you
If We Were Lovers
If we were more than just good friends
I know how good it could be
Just by the way you're looking at me
As if we were lovers
If We Were Lovers
I've waited so long for that day
I think you feel the same way
You try so hard not to give it away
Afraid that i'll discover
What in your heart you know
Is meant to be
But darlin if you want it
To be me
To be the one to say
I want you
Then i'm telling you now
Gonna find a way somehow
To be your lover
To spend the whole night
Making love
Then find it's never enough
Just think what we are giving up
Every day that we're not lovers
Few times in our loves
Can we feel this way
It would be a shame
Just to throw it away
Time is slipping by
We don't know what's ahead
I don't want to look back
And have any regrets
How much i love you
